Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/19/06 has been entered.

2. Claims 1-16, 27-34 and 36-42 remain pending and are being allowed.

Allowable Subject Matter

3. Claims 1-16, 27-34 and 36-42 are allowed.

4. The following is an examiner's statement of reasons for allowance:

As Applicant points out in the remarks filed 12/19/06, the following claimed features are not shown or suggested by the prior art of record: The combined steps, in a method for dynamically updating software, of:

- dynamically and automatically updating, independent of user interaction, an operating system component prior to installation of the operating system component on at least one destination machine, said method further comprising:

- identifying update content related to the operating system component, initiated from one or more installation media, before installing the operating system component

on the destination machine from the one or more installation media, said operating system component being stored on the installation media and being adapted for installation on the destination machine from the one or more installation media, said identified update content being specific to the operating system component and the destination machine, wherein the installation media being different from the destination machine;

- obtaining the identified update content from one or more update media, said update media being remote from the destination machine;
- merging the update content with the operating system component stored on the installation media;
- creating an updated operating system component on the destination machine from the merged operating system component before installing the updated operating system component on the destination machine.

These limitations are recited in each of independent claims, 1, 27 and 38; thus, all remaining claims are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
